Mitcham Private Hospital is an ideal solution for privately insured patients who need ongoing care in a comforting and private environment. Our **Direct to Hospital GP Medical Admissions Program** means patients can be admitted directly to hospital with one phone call from the GP surgery – avoiding those lengthy waits in emergency rooms.

Under the Direct to Hospital GP Medical Admissions Program, patients are managed by a Specialist Physician in hospital and there is a multi-disciplinary approach to care.

Patients we commonly treat in our Medical Admissions Ward include:

- Wound management (IV antibiotics, dressings)
- UTI/Pyelonephritis
- Ulcers & cellulitis
- Dehydration
- Gout
- Investigation of shortness of breath
- Pneumonia
- Anaemia-Investigation
- Difficult to control blood pressure or Diabetes
- Chronic congestive cardiac failure
- Gastrointestinal problems
- Tonsillitis, quinsy, epistaxis

Patients who are not suitable for admission include those with chest pain, those suspected of a heart attack or other condition which require intensive workup. Patients over the age of 80 or requiring significant allied health input will need to be screened via phone.

Patient information

To ensure a quick admission process, please call the hotline with the following information:

- ☐ Full Name ☐ Date of Birth ☐ Health Fund Details ☐ DVA Details ☐ Provisional Diagnosis
- ☐ Past Medical History ☐ Medications ☐ Patient Observations
